Day 1

Scientific Program

November 11, 2022

08:30-09:00 @ **Registration**

09:00-09:30 @ **Opening Ceremony**

Keynote Forum

09:30-10:10

Title : Investigating the cellular and molecular mechanisms of diabetes-associated cancer

Jinsil Kim, Biola University, USA

10:10-10:50

Title : Clinical Significance of human placenta-derived Laennec in the treatment of Chr. Liver disease(NASH,CHC,H.H) and complicated type2 Diabetes Mellitus

Yuki Hamada, Hamada Clinic for Hepatology and Gastroenterology, Japan

10:50-11:10 Break

11:10-11:50

Title : Food freshness monitoring based on carbon dot and UV light reinforced colorimetric fish gelatin films using a custom-designed mobile application

Leyla Nesrin Kahyaoglu, Turkey

Workshop Presentation 01

11:50-12:15

Title : Target Chemical and microbial analysis for IQF shrimp (Penaeus monodon) based on sizes, temperatures, and food additives to extend shelf life.

Mohammad Aslam Hosain, Bangladesh

12:15-12:40

Title : Therapeutic ketosis and the broad field of applications for the ketogenic diet: Ketone ester applications & clinical updates

Raffaele Pilla, St. John of God Hospital – Fatebenefratelli, Italy

12:40-1:40 Lunch Break

1:40-2:05

Title : Attributes Influencing Uncontrolled DM Among Young Women of Urban Area in Dhaka City

Sharmin kaur, Bangladesh

2:05-2:30

Title : Oral manifestations of Diabetes Mellitus. A systematic review

Elisabet Mauri Obradors, Spain

2:30-3:00

Title : Primate care in diabetes mellitus best results

Zulma Lopez, USA

3:00-3:25
Title : TBA
Harpeet Singh, USA

3:25-3:55
Title : TBA
Davido

03:55-4:10 Break

4:10- 4:35
Title : TBA
Launo

4:35-4:55
Title : TBA
Ruiz

4:55-5:20
Title : TBA
Andrea

5:20-6:00 Posters

poster A
Title : Development of desirability function to reduce the incidence of disaggregated fillets in the fish slaughter industry
Flavia Aparecida Reitz Cardoso, Brazil

poster B
Title : Antimicrobial properties of Nile Tilapia co-product films plus Pitomba extract
Leila Larisa Medeiros Marques, Brazil

poster C
Title : Control of fungal spoilage in strawberries using crude plant extracts against the fungus Botrytis cinerea
Márcia Regina Ferreira Geraldo Perdoncini, Brazil

Panel Discussion

Awards, Thanks giving & Closing Ceremony

Day-1 Ends

Day 2

November 12, 2022

Hall-A

09:00-09:20	Title : Nutritional and microbiological quality of raw cow's milk sold at the Bagnon Market (Abidjan-Yopougon), Côte d'Ivoire (Ivory Coast) Guillaume , Higher Technical School of Yopougon, Cote d'Ivoire
09:20-09:40	Title : Study on food waste and consumer behavior in Moldavian households Dimitrie Stoica , Dunărea de Jos University of Galati, Romania
09:40-10:00	Title : Effect of ultra-high pressure homogenization on structural and technofunctional properties of egg yolk granule proteins Romuald Gaillard , Université Laval, Canada
10:00-10:20	Title : The effect of high temperature water on the production of bioactive compounds in broccoli and bioactivity of its extracts Ivana Sola , University of Zagreb, Croatia
10:20-10:40	Title : Impact of broccoli (Brassica oleracea L.) microgreen: Supplementation of health foods Pooja Bhatt
10:40-11:00	Title : Influence of Natural Antioxidant In Maintaining The Quality Of Mackerel Fillets During Frozen Storage Ester John , University of Dar es Salaam, Tanzania
11:00-11:20	Title : Effect of Apple peel as an antioxidant on the quality characteristics and oxidative stability of mayonnaise Muhammad Umair Khalid , University of Agriculture, Pakistan
11:20-11:40	Title : Prospects & possibilities of fortified sugar and jaggery Anushka Akash Kanodia
11:40-12:00	Title : TBA Nini Liang
12:00-12:20	Title : TBA Nicola Scott
12:20-12:40	Title : Genome Wide Association Analysis for Grain Micronutrients and Anti-Nutritional Traits in Mungbean (Vigna radiata (L.) R. Wilczek). Muraleedhar S. Aski , ICAR-Indian Agricultural Research Institute, India
12:40-13:00	Title : Technology diffusion in the millet processing industry vide new product development and establishment of processing plant for Multimillet flour Kirti Gautam , Amity University, India
13:00-13:20	Title : Application of biotechnology in modern agriculture Yousef Naserzadeh , Peoples' Friendship University of Russia (RUDN University), Russia

13:20-13:40	Title : TBA Thilini Kananke
13:40-14:00	Title : TBA Indra T
13:45-14:00	Title : Millets the future food to achieve food security Layam Anitha, S V University, India
14:00-14:15	Title : Nutritional and microbiological quality of raw cow's milk sold at the Bagnon Market (Abidjan-Yopougon), Côte d'Ivoire (Ivory Coast) Sylvie Assoi, Higher Technical School of Yopougon, Cote dlvoire
14:15-14:30	Title : DNA Speciation as a tool to curb adulteration of dairy products in Kenya William Kimaru, Kenya Bureau of Standards, Kenya
