Keynote Presentation

Nate Blum

Sorghum United, USA

Title: The Role of Sorghum and Millets in Reshaping Global Food and Agriculture Paradigms

Keynote Presentation slots are available

Oral Presentations

Muyideen Olaitan Bamidele

Universidad Autónoma de Coahuila,
Mexico

Title: Ultrasound-Assisted Extraction of Bioactive Polyphenolic and antifungal activities of Mexican Oregano

Maurizio Servili

University of Perugia, Italy

Title: New food ingredients from virgin olive oil by-products containing bioactive phenols

Renata Adriana Labanca

University of Minas Gerais, Brazil

Title: Case Study: Specialty Coffee in Sweden

Maria Athanasopoulou

Chairwoman of the World Food Travel
Association, Greece

Title: Rural Flavors: Enhancing Tourist Experiences Through Gastro-Agrotourism

Mohammad Shah Alam

Ministry of Agriculture, Bangladesh

Title: CRISPR/Cas9 is a competent genome editing tool for food security

Taleb Yasmine

Guelma University, Algeria

Title: Enhancement of Chemical Composition, Nutritional Status, and Quality of Mechanically Deboned Chicken Meat and Whole Chicken Muscle Meat Produced Low Fat Mortadella Following the Addition of Flaxseed Oil and Thyme Oil

Khumbaron Kiranbala Kabui

National Institute of Food Technology and Entrepreneurship Management, India

Title: Advances in Grain Processing Technology: The Role of Ohmic Heating Parboiling in improving the milling and grain qualities of Kodo millet

Oral Presentation slots are available

Poster Presentation

Bamikale Micheal Bola

Autonomous University of Coahuila,
Mexico

Title: Optimized Microwave-Ultrasound Hybrid Extraction and HPLC/MS Profiling of Procyanidins from Coffee Pulp for Food and Nutraceutical Applications

Priscilla Ollennu-Chuasam

University of Turku, Finland

Title: Effect of varying coffee roast levels on the profile of lipophilic and hydrophilic bioactive compounds in ready-to-drink coffee beverages

Ciarán Crowley

University College Cork, Ireland

Title: Evaluation of Two Novel Commercial Starter Cultures for Utilization Within Industrial Pepperoni Production

Rabiul Aual

Bangladesh

Title: Dried Dates fruits, which serve as important healthy food worldwide

Cherif Anntar Asmaa

Abou Bakr Belkaid University, Algeria

Title: Biofilm formation capacities of *Staphylococcus aureus* strains isolated from döner kebab and effect of acetic acid and citric acid against their biofilms

Poster Presentation slots are available
