Conference Invitation:

Inovine Scientific Meetings is excited to invite you to the **International Conference on Obesity, Metabolism and Weight Management**, and happening on **November 23-24, 2026**, in **Paris, France**.

This congress will offer a hybrid format, providing both in-person and virtual participation options to ensure accessibility for all. The event aims to bring together a diverse community of experts, including top researchers, healthcare professionals, policymakers, and industry leaders, to engage in meaningful discussions on the latest advancements in obesity treatment, metabolic health, and weight management.

Managing your weight is a crucial aspect of overall health. Weight control involves maintaining a healthy body weight, which can vary based on individual factors. Body Mass Index (BMI) is commonly used to determine a healthy weight range, with a BMI over 30 typically classified as obesity.

Attending this congress will provide invaluable insights into current trends and developments in obesity and metabolic health. It will also serve as a platform for networking with top experts, exchanging knowledge, and engaging in high-impact discussions that shape the future of weight management strategies.

Your participation-whether in Paris, France or virtually-will contribute to the advancement of this critical field. This year's theme, **“Global Perspectives on Obesity: Driving Innovation Toward Impact,”** reflects our dedication to driving scientific progress and transforming patient care.

Warm Regards,

Organizing Committee

About Paris, France

Paris, the capital of France, is one of the world's most iconic and enchanting cities renowned for its timeless beauty, rich history, and vibrant cultural life. Often called "The City of Light," Paris blends historic grandeur with modern elegance, offering visitors an unforgettable experience at every turn. The Eiffel Tower stands as the city's most famous landmark, symbolizing romance and innovation, while the Louvre Museum home to the Mona Lisa showcases centuries of artistic brilliance. Along the banks of the Seine River, charming bridges and riverside cafés create postcard-perfect views, especially at sunset.

Paris is also celebrated for its architecture, from the Gothic splendor of Notre-Dame Cathedral to the white-domed Sacré-Cœur Basilica in Montmartre. The city's neighborhoods each have their own personality whether it's the artistic spirit of Montmartre, the luxury boutiques of the Champs-Élysées, or the intellectual charm of the Latin Quarter.

Beyond its landmarks, Paris captivates with its cuisine and lifestyle. Fresh croissants in the morning, fine dining in elegant bistros, world-class fashion, art galleries, and lively street culture all contribute to its global appeal.

Dear Organizers,

This conference brought together important researchers with topical and very interesting presentations.

Firstly, presentations addressed a series of topics of global interest regarding studies about different food products (e.g. cow’s milk, wheat bread, etc.), enzymes, fertilizers and current global issues (e.g. food alternatives, food security, etc.). Secondly, the conference organization was at a high level. The support from conference organizers was permanently available and all the requests were resolved in the shortest possible time.

Congratulations for all! I want to thank you for all of your efforts and for giving us - the participants - a very good opportunity to share our research and to interact with each other. I hope that I will be available to be able to physically participate in the next conference!

Dimitrie Stoica
Dunarea De Jos University of Galati, Romania

It is my pleasure to write testimonial for the event organised by inovine conferences, the event was well planned and executed. The selection of speakers was meticulously planned and executed. All most all the speakers were delivered wonderful briefings about their area of expertise. I have enjoyed the event. Thank you for opportunity and support. Thanking you inovine once again.
