**Theme: Revolutionizing
the Rhythm: Advancing
Technology for a Healthier
Heart**

Keynote Presentations

Terrance Khastgir

Integrus Baptist Medical Center,
United States of America

Title: Management of Congestive Heart Failure - EP Overview

Cesar Javier Zaidman

CIPREC, Argentina

Title: Evaluation of Patient Satisfaction in Medical Consultations: Clinical Care vs Research Protocol Consultations

Praveen Veerabhadrapa

Penn State University,
United States of America

Title: Tracking the Truth: Evaluating the Accuracy of Wearable Fitness Technology

Keynote Presentation Slots are Available.....

Workshop Presentation

Elena Grigorenko

Belarusian State Medical University,
Belarus

Title: Factors determining the likelihood of Detecting Chronic Ischemic Heart Disease in Liver Transplant Recipients in the Remote Postoperative Period

Workshop Presentation Slots are Available.....

Oral Presentations

Adrian Owen

Te Whatu Ora Waikato, New Zealand

Title: PRIME – Prevention of Reperfusion Injury in Myocardial infarction
Does Paracetamol reduce Reperfusion Injury in patients presenting with ST-Elevation Myocardial Infarction?
A single site, historical control, clinical trial

Chenyen Chien

MacKay Memorial Hospital, Taiwan

Title: Coronary Artery Bypass Grafting in Patients with Severe Left Ventricular Dysfunction: Personal Experience

Rafal Januszek

American Heart of Poland, Poland

Title: Long-Term Outcomes Following Drug-Coated Balloons Versus Thin-Strut Drug-Eluting Stents for Treatment of In-Stent Restenosis in Acute Coronary Syndrome (ACS Dragon-Registry)

Xuantong Guo

Xuanwu Hospital, Capital Medical University, China

Title: Construction of Machine Learning Predictive Model for In-Hospital Mortality in Patients with Acute Coronary Syndrome

Jonathan Alvin Wiryaputra

National Cardiovascular Center, Indonesia

Title: Expanding Donor Utilization in Heart Transplantation: Contemporary Outcomes of DCD and Normothermic Machine Perfusion

Khidirovagulnoza

Tashkent State Medical University, Uzbekistan

Title: Mechanisms of Morphological Changes In Cardiac Cells In Mineral Metabolism Disorders

Layan Habib

Israel Institution of Technology, Israel

Title: Injectable Magneto-Mechanical Actuators for Leadless, On-Demand Cardiac Pacing via Mechano-Electrical Feedback

Oral Presentation Slots are Available.....

Poster Presentations

Fariba Yazdanpanah

The University of Texas at Tyler,
United States of America

Title: Cardiac Arrhythmias after Covid-19 Vaccination: A Secondary Analysis of Reported Cases

Karthikan Kirupakaran

Barts and The London School of Medicine
and Dentistry, United Kingdom

Title: Application of AI in the Detection of Cardiovascular Disease Using Multimodal Imaging – a literature review

Lee Kai Yi

Ministry of Health Holdings, Singapore

Title: Magnesium Use in Pre-Excited Atrial Fibrillation

Liew Yee Kent

Sengkang General Hospital, Singapore

Title: Inferior STEMI Mimic from Atrial Ectopic Rhythm with Atrial Repolarization Wave

Darryl Low Wei Jie

MOH Holdings Pte Ltd, Singapore

Title: Inferior STEMI Mimic from Atrial Ectopic Rhythm with Atrial Repolarization Wave

Antonio Jose V Vicente

Philippine Heart Center, Philippines

Title: Association of Lipoprotein (a) with Severity of Coronary Arterial Lesions among Acute Coronary Syndrome Patients

Intouch Chunlakittiphan

Khon Kaen University, Thailand

Title: AI-Powered Classification of Prosthetic Heart Valves using State-of-the-Art YOLOv26: Detection and Brand Identification of Aortic, Mitral and Tricuspid Prostheses

Kittipoom Tossapornpong

Vajira Hospital, Thailand

Title: Effects of Using RAAS inhibitors in HFrEF in Dialysis Patients

Asma Ben khemis

La Rabta Hospital, Tunisia

Title: Main Pulmonary Artery Aneurysm in Patient with Laubry-Pezzi Syndrome: A Case Report of Surgical Repair

Poster Presentation Slots are Available.....

Exhibitor Slots are Available.....
